

SAHILVERSE / THE COMPLETE ATLAS

A field guide to the interdisciplinary creative archive • 2026 edition

Editorial note: this is a curated map of reported projects and concepts, not a live audit of every destination. Links must be verified before being treated as published resources.

How to use the atlas

Begin with a question rather than a project count. Choose a trail, read the context of a node, compare adjacent projects and distinguish research claims from speculative creative experiments. Use the downloadable CSV or JSON as a portable inventory.

Agency Under Uncertainty

Decision making, identity, action and the difficulty of translating values into behaviour.

- When is inaction rational?
- Which decisions are reversible?
- What distinguishes a useful model from a persuasive metaphor?

The Constructed Self

The self across stories, social expectations, performances and alternative possibilities.

- What stays continuous when roles change?
- Which identities are chosen?
- Where do narratives mislead?

Emotions as Interfaces

The translation of feeling into language, scent, images and social meaning.

- What can metaphor illuminate?
- Where should claims remain subjective?
- How does emotional literacy support agency?

Machines, Minds & Worlds

Artificial ecologies, simulation, interactive research and the limits of technological analogy.

- What emerges from simple rules?
- How can simulations mislead?
- What makes an experiment reproducible?

Meaning Beyond Metrics

Philosophy, art, work and life beyond comparative scorekeeping.

- What is enough?

- What deserves preservation?
- What does a meaningful ordinary day contain?

Building a Public Archive

Knowledge graphs, archives, editorial linking and long-term digital preservation.

- What should a future reader know?
- How should provenance be recorded?
- How do we distinguish draft from publication?

CATALOG / EDITORIAL INDEX

Agency — 1 records

Small Freedoms · Concept / experiment · Project reference; URL not verified

An inquiry into everyday autonomy.

<https://smallfreedoms.sahilverse.online/>

Archive — 8 records

Sahil Tayal — Online · Home · Reported live; verify

Earlier web universe and extensive collection of themed projects.

DATA ETHICS & PROVENANCE

A recorded URL is not proof of a live site. The catalog distinguishes known canonical destinations, reported live projects, private destinations and unverified concepts. Thematically related links represent editorial interpretation and are not scholarly citations.

Local notes and saved projects remain in the visitor's browser. The static site does not transmit notebook content to a server. Export a copy before clearing browser data.
